# 5th User Conference of the FDZ of the BA at the IAB

We are pleased to announce the 5<sup>th</sup> user conference of the Research Data Centre (FDZ) of the Federal Employment Agency (BA) at the Institute for Employment Research (IAB). The aim of the conference is to bring together researchers who work with the data provided by the FDZ and to promote exchange between researchers and FDZ staff. The program committee invites submissions on any topic related to labour markets using FDZ data.

This year's conference will also host an extra session on French labour market data to celebrate the newly established cross country cooperation between the IAB and the Centre d'accès sécurisé aux données (CASD). Therefore, submissions relying on CASD data are also welcome.
